Quality Technology International Adds Industry Veteran Dr. Miloud Araba

Elgin, IL -- Quality Technology International announces the appointment of Dr. Miloud Araba as Poultry Nutritionist, Research & Technical Services.

Dr. Araba is responsible for technical sales support with poultry producers, veterinarians and nutritionists as well as implementing field research on QTI existing and potential future products.

He joins QTI from Syngenta Seeds, where he most recently was Head, Technical Services, Feed & Renewable Fuels. Dr. Araba also served with Syngenta Biotechnology as Director, Bioprocessing Business Development and was Global Director, Sales, for Syngenta Animal Nutrition. Prior to working for Syngenta, Dr. Araba held business development, management and research positions with Cargill and DuPont/Pioneer HiBred International.

“QTI is excited by the addition of Dr. Araba to our team, given his vast experience in agriculture spanning from disruptive technology development and commercialization, product and portfolio management, market development and customer engagement in livestock and renewal fuels,” says Troy Lohrmann, President and CEO of Quality Technology International.

Dr. Araba earned his Ph.D. in Poultry Science with focus on Mycotoxicology and Nutrition from the University of Georgia, where he also earned a Master’s degree in Poultry Nutrition. His undergrad degree in Agricultural Sciences, Animal & Plant Sciences is from the Hassan II Institute of Agronomy and Veterinary Medicine in Rabat, Morocco.”.
